*Contemporary Wedding Photography*

*Firstly, thanks for taking time to consider me as your professional wedding photographer! So.. why should you book me?*

*I shot my first wedding back in July '97. The location was nice, the couple beautiful... and the emotions recorded on photographic film that day are still powerful today. Still fresh!*

*I enjoy finding those special moments, capturing emotions, the most natural and beautiful highlights in life.*

*Shooting weddings is a real joy for me and I always look forward to the next wedding, big or small, and I'm sure you'll love the images too.*

*Images that will keep the happy day and your truly precious moments fresh for the rest of your life!*

# engagement

## PHOTOSHOOTS!

*A relaxed photo shoot is a perfect way to celebrate your engagement and to get some great images before the emotional big wedding day.*

*I can choose a few cool locations to suit your style or you can choose something close to your heart. For example, why not re-enact your first date or the proposal?!*

*It's a brilliant way to get used to being the focus of attention or more to the point to let your love be the focus of attention and capture the excitement of your engagement, the passion growing between you, and most of all to simply have fun together!*

*Who knows? You may want to use some of the shots for your wedding invites, Save The Date mail outs or even as a slideshow at the reception... just ask and I'll be happy to help!*

*(£265 or included in the Exclusive Collection)*

your special

## WEDDING DAY!

Wedding Photography is my passion so before the day I like to take time with you for a consultation, to get to know your plans for the day and to get to know what you want from your photography.

On the day itself, I like to shoot the day as it unfolds, quietly in the background, observing and recording as the story develops...That way you get to relax and enjoy your wedding as it happens and after, or sometimes during, the honeymoon relive the special day and all the highlights over and over. It's the best investment you'll make!

Over the years I have developed a dynamic, but very natural style of photography, creating fresh and inspiring images tailored to your satisfaction.

My style is contemporary and fresh, natural and photojournalistic with a hint of formal when needed!

And if you're not a big fan of having your photo taken... don't worry, you're beautiful and I'll prove it!
